Health Diagnostics Proudly Congratulates This Year's Winners of the Andrew McKelvey Entrepreneurial Scholarship

The Andrew McKelvey Foundation has awarded sixty-nine \$40,000 four-year scholarships to high school students in 22 states. To qualify, these students, while attending high school, had to run businesses that were successful and supportive of their local communities.

Four of the 2009 winners are from Florida, nine from California, and twelve from New York and New Jersey. Sixty of the winners ran for-profit businesses; nine of them not-for-profit businesses. The 69 businesses generated combined revenues of over \$600,000 per month and employed over 375 full-time and part-time employees.

The late Andy McKelvey was a strong proponent of the philosophy - "Educate a student and he will get a good job. Educate an entrepreneur and he will create many jobs." Andy established the McKelvey Foundation (www.mckelveyfoundation.org) to implement this philosophy by helping to educate promising young entrepreneurs. It was his vision, his passion, his way of giving back.

Over the course of his career, Andy's entrepreneurial successes created thousands of jobs. Now the McKelvey Foundation, Andy's legacy, proudly continues his work by empowering future generations of entrepreneurs to create jobs for years to come.

In honor of Andy and in full support of the importance of encouraging entrepreneurial spirit in our nation's youth, Health Diagnostics proudly continues Andy's kind and generous practice of donating a significant percentage of the company's profits to the McKelvey Foundation.
